

# Zhejiang Wang Jin invests in Truetzschler's spunlace technology

Zhejiang Wang Jin Nonwoven Co. Ltd, and Truetzschler sign agreement for the supply of 2 state-of-the-art spunlace lines.

Model of Wang Jin Nonwovens Plant.

Truetzschler and Zhejiang Wang Jin signed an agreement to supply 2 spunlace lines. One line is a high speed carding line including the well-known random roller technology. This line will fulfill highest demands and will deliver outstanding web quality at highest speeds.

The second investment is a cross lapper line to produce high quality products with low MD/CD ratios. Once running it will be the most advanced cross lapper line worldwide. Both lines will be completely supplied by Truetzschler, being the only company manufacturing all nonwovens equipment from opening/blending to winding in house. ♦
