

125 years of Stäubli

Reliable innovation since 1892.

Stäubli is a mechatronics solutions provider with three dedicated activities: Connectors (both fluid and electrical), Robotics and Textile. With a global workforce of over 4,500, the company generates annual turnover surpassing 1.1 billion Swiss francs.

In 2017, Stäubli celebrates a milestone in its rich history. 125 years ago, in 1892, the company was founded in a small workshop at the lake of Zurich/Switzerland, and has since grown to an international group with 12 production sites and business units in 29 countries on all continents.

Stäubli delivers innovative mechatronic solutions for higher productivity to all industrial sectors. ♦

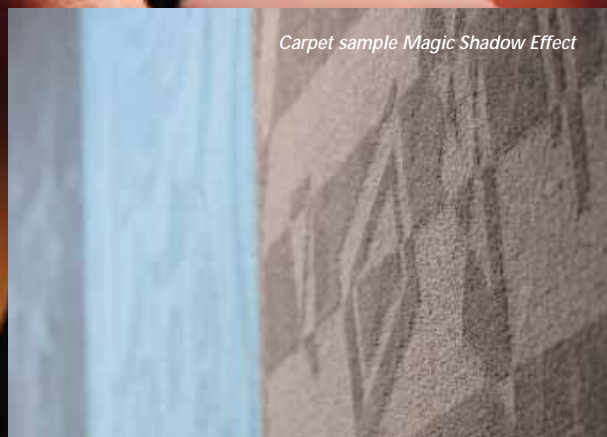

DOMOTEX 2017

ALPHA 500 SINGLELOOP carpet weaving system

Stäubli presented latest machine woven carpet trends at Domotex 2017, Hannover show during 14-17 January 2017. With its brand Schönherr carpet systems, Stäubli offers the carpet weaving systems of the ALPHA Series featuring latest technologies for highest quality standards and economic production.

The carpet weaving system ALPHA 500 SINGLELOOP, the specialist for low pile applications, such as old looking carpets well worn, and faded carpets with the pile worn down almost to the back also attracted the interest of the visitors during the show.

Various solutions were presented at the stand located at hall 2, in order to expand the weaving capabilities of Stäubli customers in terms of flexibility and productivity. The samples of the latest carpeting with multiple ground bindings and effects, such as the Magic Shadow Effect that provides interesting aspects to mono-coloured carpets were also displayed for Domotex visitors. ♦
