## National Commercial Corporation displays KYFJ Computer Jacquard Needle Loom

National Commercial Corporation was founded by Mr. Muhammad Sultan in 1967 primarily dealing in textile machinery, spare parts, textile raw material, fiber, yarn and allied products.

According to Mr. Muhammad Iqbal Sultan, Partner, National Commercial Corporation, "We always introduce latest technology and innovation to the Pakistan textile industry. Specially, heat transfer papers and fancy yarns.

While talking about the machinery on display at Textile Asia 2017 exhibition, he said, "We are the pioneer in the field of narrow fabrics. Specially needle looms and crochet machines. We are representing Kyang Yhe Group (one of the leaders and largest producer of needle looms and related machinery in the world) from more than 30 years."

"At this show, we are showcasing KYFJ Computer Jacquard Needle Loom. It is automatic computer controlled system with dual motored driving and USB I/O technology. The oil-recycling system of this machine consistently works with less noise. It has a failure alerting system which consists of four sensing spots: warps, weft, binder and taking up." ♦
