

Ultima Groundbreaking Oil-Free variable speed screw compressors launched in Pakistan

New Technologies for oil free air & nitrogen production leading to greener tomorrow.

Rastgar & Co in collaboration with CompAir organized a seminar on “New Technologies for Oil Free Air & Nitrogen Production” on 18th July, 2017 at Ramada Plaza Hotel, Karachi, Pakistan. Expert from CompAir James Cutting, CompAir is a brand of Gardner Denver, addressed the seminar.

James Cutting, Oil Free Air and On-Site Nitrogen generation specialist from CompAir, unveiled Ultima™, a new groundbreaking oil-free variable speed screw compressor with revolutionary energy efficiency which provides 100% oil and silicone-free clean air for critical applications for industrial manufacturer in Pakistan.

“Gardner Denver collaboration with Rastgar, for the Pakistan market has further strengthened owing to the high level of sales and service specialization achieved by Rastgar,” James Said.

Rastgar’s dedicated team of trained engineers exceeds expectation of its customers, together with a reliable range of Air Compressors from CompAir backed by timely aftermarket and service facilities all over Pakistan.

James Said, “Ultima™ is an Exciting Development in Oil-Free Compressor Technology. Leader in revolutionary compressor technology, CompAir, have announced their latest landmark range in Pakistan”.
