

ITM 2018: The largest exhibition in Turkey

ITM 2018, a leading textile, yarn, knitting, weaving, dyeing, printing, hosiery machineries, sub-industries, and chemicals exhibition, organised by Tuyap Fairs and Exhibitions Organisation Inc. & Teknik Fairs Inc., will be held from April 14 to 17, 2018, at Tuyap fair convention and congress centre, Istanbul, Turkey.

With the participation of hundreds of manufacturers, each developing leading technologies in their respective fields, and the visits of the worldwide industry investors and trade delegations, the event will turn into a textile show.

ITM 2018 will become a textile technology feast with the participation of the leaders of the textile world, those serve in all the subsectors of the industry, from cotton to yarn, weaving to knitting

and digital printing to dyeing and finishing. ITM 2018, which will host the worldwide product launches of many domestic and international companies, is also drawing attention with the growing stand areas and machinery trails of the producers compared to the predecessor ITM's.

The event will concurrently host Hightex 2018, the Istanbul yarn fair, and the ETT2018 conference at the same time. Within Hightex 2018, the presentations of nonwovens, technical textiles, smart textiles and the cutting-edge textile technologies will be done, which are the rising values of today's world, while the leading yarn manufacturers in the globe will showcase their latest trends and newest products to the visitors during Istanbul yarn fair.

The ETT 2018 conference, which will be realised with the participation of textile experts, academicians, researchers, administrators, machine manufacturers, and the other guests with business experience, will provide the visitors a unique symposium opportunity.

Some of the leading names of the academic textile world whose will take part at the conference as spokesperson include Thomas Gries; head of textile engineering department at RWTH Aachen University Germany, Yusuf Menciloglu; dean of faculty of engineering and natural sciences at Sabanci University Turkey, Ph.D., Melissa Pasquinelli; associate department head and director of graduate programs at NC State University US, and Yusuf Ulcay; chancellor of Uludag University Turkey.
