

Sales Success for Benninger: 1,000 automation solution of Benninger Automation has been installed at Getzner Textil AG

fltr: Peter Gnägi (Chairman of the Board of Directors, Benninger), Herwig Steiner (Head of Dyeing Facility, Getzner), Heinz Moosbrugger (Head of Finishing, Getzner), Beat Meienberger (CEO, Benninger), Roland Comploj (Chairman of the Board, Getzner), Jürgen Ströhle (CTO, Benninger), Peter Niklaus (Engineering, Benninger).

The traditional textile company Getzner Textil AG in Bludenz, Austria is known world-wide for its high-quality fabrics for a wide variety of applications. In the sustainable production of textiles, Getzner has for many years relied on the innovative process and system solutions of the Benninger Group with its headquarter in Uzwil, Switzerland.

As part of the current project of the two longstanding partner companies, the Benninger Pad-Dry Hotflue was equipped with the 1,000 automation solution from Benninger Automation GmbH, Zell, Germany.

This milestone was taken by Beat Meienberger, CEO of Benninger AG, as an opportunity to thank Getzner for the

long-standing, good business relationship and to hand over a voucher for spare parts worth EUR 10'000 to the management of Getzner Textil AG.

Benninger is looking forward to many more years of good partnership and interesting, new projects with Getzner Textil AG. ♦
