

# Fully automatic rolling, packing and paletising machines by Demsan

Demsan, a leading manufacturer of textile machines has been operational in Turkey since 1978. The company has started manufacturing precision plating machine and now manufacture about eleven different types of machines.

Demsan prioritises customer requirements and ensure that their product quality remains consistently high, with a focus on research and development the company in continuously working for further upgradation of the technology.

Demsan is been long associated with home textile for many generations. Keeping the tradition of always serving consistently, Demsan today is one of the horizontally integrated companies in the industry.

With years of experience and expertise the company now proudly has several hundreds of satisfied customers in

Turkey as well as in other parts of the world.

For last few years the company has focused on the Asian market along with the Middle East and European countries and have got an excellent response. Pakistan is considered of the major

markets. Demsan has had significant success in Pakistan within a comparatively shorter time period. Zakaria Trading International has been representing Demsan in Pakistan.

Up till now 70 Demsan machines have been sold to important companies including Indigo Textile, Soorty Enterprises, Rajby Textile, Siddiqsons, Rizwan Enterprises, Union Fabrics, Bhanero Group (Faisal Weaving), Sapphire textile, Nishat Mills Ltd, etc.

The main products include packing machines, spreading machines, wet rope opening machines, batch to batch machines, plating machines, rolling machines, beam winding machines, precision plaiting machine and folding machine. ♦

## Rieter Award Winner 2018

Rieter Award has been a component of the company's program, given to students and young trainees every year since 1989. With the prize, Rieter

promotes young talents and supports universities and institutes in their efforts to win outstanding new recruits. The Rieter Award winners are selected globally from students and young trainees in the textile technology industry who are distinguished by their sound work and great commitment. The Rieter Award Winners' Club now has 177 members.

The four prize winners for 2017 are from China, Turkey, the US and Pakistan:

- ❖ Mengru Li, Wuhan Textile University, China.
- ❖ Dogukan Vanlioglu, Dokuz Eylul University, Turkey.
- ❖ Matthew James Coats, North Carolina State University, the US.
- ❖ Salman Ahmad, National Textile University, Pakistan.

Salman Ahmed is a bright alumnus of the National Textile University who

completed his BSc in Textile Engineering in 2016. He is a gold medalist who stood first in the class of 2016. His specialization was in developing yarn with antimicrobials for sports applications. He is currently working as the Assistant Manager Marketing at US Denim Private Limited.

In a well-attended ceremony held on 27th April, the third day of IGATEX 2018, Mr. Peter Spirgi from Rieter and the team of Simag Pvt Ltd, representatives of Rieter in Pakistan, presented the Rieter Award to Salman Ahmed. While accepting the award, Salman Ahmed said it is a great honor for him to receive this award and thanked Rieter and Simag Pvt. Ltd for providing him this great opportunity. ♦
