

JS Bank joins hands with Rastgar & Co

JS Bank has entered into an agreement with Rastgar & Co. to facilitate domestic manufacturers for the purchase of state-of-the-art energy efficient air compressors. The deal was inked by Kamran Jafar, Group Head Corporate & Retail Banking - JS Bank and Maqsood Zulfqar, CEO - Rastgar & Co. in the presence of team members from both companies.

Under the terms of this arrangement, JS Bank will provide clients with credit and leasing facilities to streamline the compressor procurement process for clients of Rastgar. On the other end, Rastgar will provide customers with CompAir Air Compressors which are equipped with iConn devices. These systems allow for predictive compressor maintenance and provide data for improved energy conservation.

JS Bank and Rastgar & Co. sign agreement for facilitating purchases of state-of-the-art energy-efficient air compressors by the domestic manufacturing sector. The deal was inked by Kamran Jafar, Group Head Corporate & Retail Banking - JS Bank and Maqsood Zulfqar, CEO - Rastgar & Co. in the presence of team members from both companies.

The signing ceremony was held at Rastgar's Korangi office during an open house session. The event was attended by a large number of prominent business and industry leaders along with media representatives.

The Secretary-General of the Korangi Industrial Association, Chairman and Vice Chairman of PAAPAM, representatives from trade associations, pharmaceutical, engineering and textile manufacturers were also present at occasion. The activity showcased the complete range of products, in the presence of experts from CompAir and Gardner Denver, the originating company' behind the technology. The representatives including John Fyfe, Charles Joel and LoicMazet specialists in their field and were on hand to engage with Pakistani manufacturers on potential opportunities, share learning experiences and advise solutions for overcoming any bottlenecks. ♦

AIR COMPRESSORS

Ultima™

U75 - U160 Variable Speed

Oil Free

PureAir

Ultima™ – The real deal

The unique patented design delivers numerous benefits to compressed air users:

- 100% oil and silicone free
- Highest levels of air quality
- Very efficient heat recovery
- Most efficient machine
- Highest efficiency levels
- Low running costs
- Easy installation
- No ducting required
- Low noise design
- Installation at point of use
- On-board monitoring
- Very user-friendly
- LP & HP blends individually driven
- Energy efficient across the flow range
- Available with iConn remote monitoring
