

# YiwuTex: Continuously supports the textile industry in 2019

**The 19<sup>th</sup> China Yiwu International Trade Fair for Textile and Garment Industry (YiwuTex 2018) has concluded on 19 May 2018 at the Yiwu International Expo Centre, Zhejiang, China.**

The one-stop sourcing and information fair is co-organised by Adsale Exhibition Services Ltd., Yiwu China Commodity City Exhibition Co., Ltd. and Jinhua Printing Industrial Association. Under the theme: Smart Manufacturing Green Innovation, this three day fair demonstrated diverse advanced machinery, technologies and products, stretching over upstream and downstream across textiles, knitting, garments and printing in the entire industry. It aims at promoting the innovative advancement and sustainable development of the textile industry, as well as helping enterprises identify suitable business partners to achieve higher productivity and effectiveness.

## Highly acclaimed by the textile industry

The manufacturers and suppliers from various places have gathered in YiwuTex 2018 covering an area of over 14,500 square meters, including Chemtax, LGL, BTSR, Groz-Beckert, Memminger-Iro, Kern-Liebers and ALOME among others. In addition, the fair has attracted more than 8,604 visitors from 42 countries and

regions. Among them, 5% are from overseas, including India, Thailand, North Korea, Taiwan, Hong Kong, Turkey, Pakistan and Uzbekistan.

A total of 34 delegations formed by associations and local renowned enterprises have attended the fair, including Langsha Group, Yongchun Technology, Huading Group, Ju Xin Dyeing and Finishing, and Yong Le Accessories. Around 90% of the visitors are satisfied with the exhibition's performance, 87% of them are impressed by the high quality of the exhibits. These compliments from exhibitors and visitors have endorsed the professionalism and business value of YiwuTex 2018.

## Advanced smart machinery and technologies in four thematic zones

The exhibits are systematically divided into four thematic zones in YiwuTex 2018 according to different textile production areas.

The Knitting and Hosiery Machinery Zone has showcased seamless underwear, knitting and hosiery machinery. Cutting, laser, CAD/CAM systems, webbing zipper forming machines and trademark printing machines were shown in the Sewing and Automatic Garment Machinery Zone.

The Textile Printing Industry Zone has gathered printing equipment, materials and related software. The yarn, textile

fabric, cloth and knitting and home textile products were also showcased during the exhibition. The exhibitors also introduced the advanced designs, innovative technologies and smart machinery to textile and garment enterprises. During the fair both the exhibitors and visitors also joined hands to identify highly productive yet low-cost solutions, in order to upgrade their factories.

## Market news and networking at professional conferences

A series of conferences and events have been organized in YiwuTex 2018 to help enterprises implement energy saving, digital production and sustainable developments, including New Production Trend Seminar, Brands Talk: Hosiery and Seamless Apparel, Textile Printing Trend Summit Forum – Yiwu Station and Private Sourcing Event. There was an overwhelming response of these concurrent events, where industry experts and representatives from well-known brands shared their insights and analysis about hot topics of industry 4.0 and smart machinery interface. YiwuTex 2019 will be held again on 16-18 May 2019, supporting the textile industry to exploit business opportunities.
