

# SignTrade and Mimaki highlighted Tiger-1800B and 3200B

Mimaki, one of the leading manufacturer of wide-format inkjet printers and cutting systems along with SignTrade displayed Tiger-1800B production-class textile printer.

According to Mr. Yaseen Merchant, Managing Director, SignTrade, "The Tiger-1800B is available in direct to textile (reactive ink) and sublimation (heat transfer) versions. With a maximum printing speed of 385 m<sup>2</sup>/h, the Tiger-1800B fits high-volume production environments that have traditionally printed using analogue printing methods, bringing the benefits of digital printing to these higher volume applications and making it more efficient and cost-effective to produce short runs, customized fabrics and garments, and samples."

The Tiger-1800B is a no-nonsense digital textile printer that simply does the job highly productive, high quality textile

printing for industrial needs. With its strong frame, stable media transportation mechanism and dedicated print head maintenance system, the Tiger-1800B is unmatched in its class. Optional units can

be added to expand the printer's capabilities, including feeding units for jumbo rolls or folded fabrics, heating units and a folding arm unit for storing fabric in the box after printing. ♦

# Mouvent TX801: High quality industrial digital textile printing machine

The Mouvent TX801 is high quality industrial 8-color printer, for brilliant color prints on any kind of fabric with linear print speeds of up to 100 m/min.

With unique Mouvent™ Cluster Technology at its heart, it allows customers to get the most dense ink coverage possible in the industry, achieve a never before seen quality and reach production rates that will leave you amazed. All this with reduced energy consumption, more ergonomic handling and reduced floor space. ♦
