

Premier Evolvics offers quality testing, OnLine Clearing and Monitoring products

Premier Evolvics has rapidly emerged as one of the leading players in the field of Quality Testing, OnLine Clearing, and Monitoring products for the textile industry.

Premier Evolvics is a part of the Premier Mills group, with headquarters at Coimbatore, India. Premier commenced operation in 1983, today has a global presence and is a leading equipment manufacturer of Fibre Testing, Yarn Testing, Contamination Sorter, Yarn Clearing, and OnLine Individual Spindle Monitoring System. Premier is an ISO 9001 company, most of its products are CE certified, has been awarded the best Electronics Company in India by Department of Electronics in 1997 and the best exporter in its category continuously since 1998.

Premier has a global presence with well-established worldwide sales network, which includes Argentina, Australia, Bangladesh, Brazil, China, Egypt, Greece, Indonesia, Iran, Italy, Mexico, Pakistan, Peru, Philippines, Portugal, South Africa, Spain, Syria, Thailand, Taiwan, and Turkey. This dramatic export market share has been achieved through ensuring world-class quality standards in its products as well as a very responsive after-sales support system stationed across.

Individual Spindle Monitoring System for Spinning: Ultimo ISM

PREMIER Ultimo ISM is the latest state of the art individual spindle monitoring system for Ring Frames. PREMIER Ultimo provides key information to various levels of management through e-service like mails, SMS and Mobile application. The light indication at individual spindle and displays at Ring frame end assists Supervisors, Maintenance persons and Operators to focus on the areas which need quick attention. The Large TV display helps the user to monitor the overall performance of the shed with regard to Production, Efficiency, Areas for improvement etc.

Premier Evolvics is represented in Pakistan by MB Textile Corporation. ♦
