

# CANLAR® Mekatronik finalised three main orders at IGATEX Pakistan 2019

**TECHsmart is the new generation fabric dyeing machine, improved by considering actual requirements of dyeing and finishing sector. It also minimizes power and water consumption. Without sacrificing the quality of production by means of its design which is focused on energy savings and environment.**

Minimizing the power and water consumption, TECHsmart also has the capability of process wide range of fabrics. The machine offers minimum environmental impact with increased nozzle pressure and higher heating performance. The nozzle cleaning system with electromagnetic flow meter and proportional dosing valve with eco-dynamic water saving washing system is another feature which is really appreciated by customers.

According to Mr. Murat ERZINLI, Sales Director, CANLAR®, "We are delighted to announce three leading textile mills of Pakistan have finalized orders for TECHsmart® new generation dyeing machine by CANLAR®."

He added, "I would like to thank Al Abbas Fabrics, who were the first customer to endorse their faith in CANLAR® as well as our new customers, Lucky Textile Mills, JB Industries and Sadaqat Limited on finalizing orders for TECHsmart® new generation dyeing machines by CANLAR®."

Mr. Imtiaz Rehmani, Managing Director, Acmatex Corporation (Pvt.) Ltd. said, "CANLAR® is making its presence felt in the market. We feel that the Pakistani market holds a very bright future and the present incentives given by the Government will go a long way in achieving the export targets sent by the Government." ♦
