

SPGPrints ready to showcase “all you need in printing” on one of the largest booths of ITMA 2019

At ITMA 2019, SPGPrints will showcase the latest innovations in both conventional and digital textile printing for the fashion and the home-furnishing industry. Looking for either a conventional or digital textile printing system, SPGPrints is the printing partner that can help visitors find all the essentials they need. SPGPrints will showcase the latest innovations in both conventional and digital textile printing for the fashion and the home-furnishing industry.

At one of the largest booths of ITMA Barcelona 2019, SPG will display the latest conventional and digital printing solutions. On top of that, visitors will have the unique chance to visit the innovative rotary screen and digital ink experience centers at the stand and witness the story behind both SPGPrints' products.

What technologies form the foundation of our innovative rotary screens? How are they made and why are they designed the way they do? At the SPG

rotary screen experience centre, not only will visitors be able to learn the answer to these questions, but also have the opportunity to actually see, hear and experience why these rotary screens are unique.

At the digital ink experience center at our stand, SPG also takes you behind the scenes of the production of our high-quality digital inks.

Looking for either a conventional or digital textile printing system, SPGPrints is the go-to all you need in a printing partner.

In terms of conventional printing systems, SPGPrints will take the opportunity at ITMA Barcelona 2019 to showcase its latest generation of laser engraving equipment and the nine color

PegasusEVO rotary screen printer.

On top of that, there will be live demonstrations of the digital textile printing solutions at the booth. At ITMA Barcelona, visitors get the chance to witness a live demo of our PIKE single-pass digital textile printing machine but in a different format than ever before. Of course, the multi-pass digital textile printing machine, the JAVELIN, will be on showcase too.

SPGPrints would like to welcome both their loyal customers as well as newly interested people to their 1500m² stand at ITMA Barcelona to see for themselves how SPGPrints can be their all you need in printing partner. ♦
